

GIT Department of Computer Engineering
CSE 222/505 - Spring 2016
Homework 08
Due date: May 09 2016 – 17:00 PM

Sort digits in your student number from the following table using the following methods and clearly show each step of the work (contents of the arrays)

- Bubble sort
- Selection sort
- Insertion sort
- Shell sort (for gap sizes, use the algorithm from the book)
- In place heap sort
- Merge sort
- Quick sort (pivot: median of first, middle, last elements)

Your will submit your homework to the TA in Lab 122. Your homework should be handwritten, no print outs or photocopies.
